Supporting Indigenous Research Scholarship

Supporting Indigenous Research Scholarship (SIRS) is a group supported by FIRE and NIRAKN. The aim is to build Indigenous research capacity at UOW by strengthening support for both current and future Indigenous students engaged in Higher Degree Research, including Honours, Masters, and PhD.

The purpose of SIRS is to offer Indigenous students a casual opportunity to talk about their research and to provide peer support for other HDR students. It provides a space to gain advice, guidance and support from scholars working in Indigenous research fields.

Meetings will be held every third Tuesday afternoon, 2pm to 4pm, in the Building 19 Research Hub beginning 18th March. Refreshments will be provided.
